***Champion of the Court:** Improve your game through a fun and engaging game of Champion of the Court. This two-hour clinic is open to adults of all playing ages and abilities. **How does it work?** One team of two players is designated as the “Champions” and goes to one side of the court. The other players make a line behind the baseline on the opposite side of the court. One challenging team steps up and plays a doubles point against the “Champions.” If the challengers win two points in a row, they replace the “Champions” on the other side of the court.

Private Lessons

There are many advantages of private tennis lessons, including one-on-one instruction, customizable lesson plans, and flexible scheduling. If you have never picked up a racket, a private tennis lesson will allow you to learn the fundamentals. If you are already an accomplished tennis player, our certified tennis pros will help you refine your game. No matter your skill level, we are confident we can pair you up with a private tennis instructor who perfectly suits your needs.
